

arms in defense of our lives and our freedom. As I ask my colleagues to join me in recognizing the 60th anniversary of VFW Post 8469, I believe it appropriate to conclude with the remarks of Floyd Houston, a member of VFW Post 8469.

"These young veterans need us as much as we need them. We must never forget our past—these giants who built what we have today and we must always keep faith with our values as we press into the future—support to veterans, their survivors, our community, and honoring our dead. May God continue to bless this Post, this county, this country, and may we never be at a loss for heroes such as these."

PAYING TRIBUTE TO JOHN
RINALDI

HON. JON C. PORTER

OF NEVADA

IN THE HOUSE OF REPRESENTATIVES

Friday, September 29, 2006

Mr. PORTER. Mr. Speaker, I rise today to honor my good friend John Rinaldi, who is retiring after a long and distinguished career with the City of Henderson, Nevada. John is an outstanding example of a dedicated and supportive community-minded person that I have the privilege of representing in the Third Congressional District.

John joined the City of Henderson in October 1989 as Property Manager and City Surveyor and was promoted in July 2004 to Manager of the Office of Property Management and Redevelopment in the City Manager's Office. He formerly directed the City of Henderson's real estate interests; administered the sale, purchase, and lease of property for public use and city-initiated enterprise projects; and oversaw the Redevelopment Agency's efforts in three separate districts: Downtown, Tuscany, and Cornerstone.

John graduated from California Polytechnic University, San Luis Obispo in 1976 with a Bachelor of Science degree in Horticulture—Landscape Design. John is a registered Water Rights Surveyor in Nevada and a licensed Professional Land Surveyor in Nevada, California, and Oregon. He is a published author of several articles on land surveying and an instructor, presenting papers at national conferences, classes and seminars.

In addition to his academic success and accomplishments, John is also a member of several organizations such as the Urban Land Institute, International Right-of-Way Association, American Public Works Association, American Congress on Surveying and Mapping, and the Nevada Association of Land Surveyors. John is also a graduate of the 1998 Clark County Leadership Forum.

John has allowed these experiences to strengthen his philosophies and ideologies of community, integrity, and professionalism to strengthen his moral code and leadership abilities. John is well regarded for possessing a strong moral character which has guided him successfully through his years of public service to our community. His commitment and passion for building a better Nevada reflects the type of person that he is.

Mr. Speaker, I am proud to honor my good friend John Rinaldi. He has worked tirelessly for the last 17 years on behalf of the residents

of the City of Henderson, and I applaud his efforts and dedication. I wish him the best in his retirement.

PAYING TRIBUTE TO MAXWELL
BAIN

HON. THOMAS G. TANCREDO

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Friday, September 29, 2006

Mr. TANCREDO. Mr. Speaker, I rise today to pay tribute to one of my constituents, Mr. Maxwell Bain of Littleton, Colorado. Mr. Bain has been accepted to the People to People World Leadership Forum here in our nation's Capitol. This year marks the 50th anniversary of the People to People program founded by President Eisenhower in 1956.

Mr. Bain has displayed academic excellence, community involvement and leadership potential. All students chosen for the program have been identified and nominated by educators.

Mr. Speaker, I would like to join in paying tribute to Maxwell Bain, and wish him the best in all his future endeavors.

CONGRATULATIONS TO KATY
ELEMENTARY

HON. RON PAUL

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Friday, September 29, 2006

Mr. PAUL. Mr. Speaker, Katy Elementary School, of the Katy Independent School District, is among the 26 Texas schools that have recently received the Department of Education's prestigious Blue Ribbon Schools award.

The No Child Left Behind-Blue Ribbon Schools Program recognizes outstanding public and private schools that are either academically superior or have demonstrated dramatic and consistent gains in student achievement. The Department of Education selects Blue Ribbon Schools based on nominations submitted by the states. My colleagues may be interested to know that every school nominated by Texas received a Blue Ribbon Schools award.

Schools can be nominated for a Blue Ribbon Schools Award if at least forty percent of their disadvantaged students show dramatic improvement over three years on state tests in reading or English language arts and mathematics. Schools whose student bodies rank in the top ten percent on state tests in reading or English language arts and mathematics may also be nominated for a Blue Ribbon Schools Award.

In addition to these two criteria, Blue Ribbon Schools must meet Adequate Yearly Progress requirements in reading or English language arts and mathematics, must not have been identified as a "Persistently Dangerous" school within the last two years, and must comply with other Department of Education requirements.

Katy Elementary's designation as Blue Ribbon Schools is a tribute to the schools' teachers, administrators, and other employees' dedication to providing students with a quality

education. It also is a reflection of the students and parents' commitment to the pursuit of educational excellence. I am therefore pleased to offer my congratulations to Katy Elementary School for being one of the 26 Texas schools designated as Blue Ribbon Schools by the Department of Education.

INTRODUCTION OF THE PERSONALIZED
HEALTH INFORMATION
ACT

HON. PATRICK J. KENNEDY

OF RHODE ISLAND

IN THE HOUSE OF REPRESENTATIVES

Friday, September 29, 2006

Mr. KENNEDY of Rhode Island. Mr. Speaker, I'm proud today to introduce the Personalized Health Information Act, which I hope will be a step in helping us redesign America's health care system.

Our health care system today delivers some of the best care in the world, but can hardly be described as the best health care system. We spend more than 50% more on health care per capita than other industrialized nations, and yet our health outcomes are much worse. We all know the burden that health care costs are putting on America's families and businesses.

Many of us have extolled the potential of information technology to begin transforming health care. I.T. can unlock data that is trapped in paper, catch human errors, help providers deliver the latest evidence-based medicine, improve public health, reduce duplication and administrative costs, and provide new research capabilities. I.T. is by no means a silver bullet, but it is a tool that can be used to reorient health care, so that—finally—the system delivers the right care to the right people at the right time, as efficiently as possible.

I've introduced other bills on this subject, and House and Senate negotiators are currently trying to work out a compromise health I.T. bill, but this bill today is a new approach. Those other bills, mine and others', have generally focused on the challenges of putting technology in providers' hands and building the related infrastructure. That goal is critical, and we pursue it vigorously. But it also is long-term.

I believe that there are other, parallel steps we can take that can begin harnessing the power of technology to improve health outcomes and efficiency right now. And I think we can do so in a way that will begin changing the dynamics around health I.T. in a way that makes the longer-term goals more attainable.

Web-based, consumer-controlled patient health records, PHRs, have been recognized by many to have great potential. After all, a PHR that contains a person's basic demographics, insurance information, and a current medications list would be extremely valuable, even if it contained nothing else. That PHR would mean every provider would have important basic information at the point of care. It would cut down on medication errors, and streamline administration.

The problem is that while many organizations offer PHRs, few people actually use them. The Personalized Health Information Act is designed to jump-start the use of PHRs.

This bill seeks to use the doctor-patient relationship to make the PHRs of value to the patients. Right now, most individuals see PHRs
